FCC NOTICE

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is needed.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions :

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

LOCATION OF CONTROLS

1	Mode Indicator	7	Bluetooth Unpair Button
2	USB charging port (1A)	8	Qi Wireless charging indicator
3	Aux-in Jack	9	Wireless charging Pad
4	Mode / Standby button	10	DC Jack
5	Volume - / Previous Button	11	Table Leg connection
6	Volume + / Next Button	12	

Note : The rating label has marked on the bottom panel of the apparatus..

Specifications

Power Supply: AC 100V-240 ~ 60/50 Hz
AC/DC adapter: DC9V ~ 3.5A
USB Rated Output: DC5V 1A

Specifications are subject to change without further notice.

SETTING UP THE TABLE

Connect the 3 identical legs to the bottom of the table.

CONNECTING THE UNIT TO POWER

Plug one end of the AC adaptor into the DC power Input, and then plug the other end into AC wall outlet. Before switching on the unit, make sure that the voltage of your electricity supply is the same as that indicated on the rating plate.

WIRELESS CHARGING

When the unit is on, place a supported mobile device on the wireless charging pad. The wireless charging indicator will be on as below:

1. While charging, the Qi indicator will be RED.
2. When fully charged, the Qi indicator will turn WHITE for some specific Android phones, For other smart phones, the Qi indicator will stay RED.
3. If improper charging or charging error (see note below), the Qi indicator will keep FLASHING. You can also check the charging icon displayed on the mobile device's screen for the charging status.

Note :

- If the mobile device is not placed properly on the wireless charging pad, or depending on the location of the mobile device's wireless charging coil, your mobile device may not charge properly.
- When the mobile device is fully charged, remove it from the wireless charger.
- Do not place foreign materials, such as metal objects, magnets and magnetic stripe card between the mobile device and the wireless charger. The mobile device may not charge properly or may be damaged due to overheating.
- Wireless charging may not work properly if you have attached a thick case to your mobile device. If your case is thick, remove it before placing on the wireless charger.
- Wireless charging uses magnetic field. Do not place too close with magnetic stripe or chip card (ID card, bank card etc.) to avoid magnetic failure

The wireless charger is compatible with Wireless Power Consortium (WPC) certified devices.

USB CHARGING

Connect the USB cable to your device and the unit's USB port. The unit will charge your device, such as smartphones or tablets. .The unit contains one USB port with 1A charging.
